MEMORANDUM FOR: Legislative Counsel

SUBJECT : Congressional Briefings on AQUATONE and [redacted]

REFERENCE : Memo for SA/PD/DCI from Legislative Counsel
dtd 26 November 1958, Same Subject.
(OGC 8-2081) (DPS-5884)

1. If Congressional briefings on the above subject are held, there will be two briefers. I will probably discuss the history of the Project and operational aspects, and I would expect Mr. Arthur Lundahl to handle the results. If I am not available, I will designate someone from my Staff at that time.

2. Briefings of this kind are given often and there is little or no specific preparation necessary. I may have some additional visual aids prepared but these have not been used in operational briefings in the past and I believe we could make the presentation without them. I would hope you will give us maximum notice of the briefings and that the number of meetings would be held to a minimum.

3. I am inclined to think the best contact point for this will be my Deputy, Colonel William Burke [redacted] to whom I am passing a copy of your memorandum, or in his absence, Mr. James A. Cunningham
